Work Experience

Frontend Developer Feb 2026 - Sep 2026
INSY sp. z o.o., insy.io Remote, full-time

- Helped with customer support and administered the platform day to day. Actively picked up reported bugs and fixed them fast.
- Worked in a startup setting with fast iterations and took part in every stage of the project, from idea to delivery. Cared a lot about good UX.
- Took over the frontend of a platform with over 2,000 paid subscriptions at an early stage and kept it moving, shipping the chat, the digital product builder, the Clipping module and many community features.

Frontend Developer Jul 2023 - Apr 2024
remote-first.institute, AI Maturity Index (later acquired by ISG) Remote, part-time

- Onboarded paying customers and ran product demos.
- Spent six weeks on site in Riyadh with the GAIA accelerator, running hackathons and presenting the product at our LEAP stand.
- Was very active in shaping the product, its direction and vision, and built the frontend of a tool where an AI chat assesses a person's readiness to work with AI.

Mobile Developer Intern May 2023 - Jun 2023
Marotino Inc. On-site, full-time

- Took over a restaurant-ordering mobile app, brought it to a working MVP and handled test flights and releases on Apple and Android.

Projects

Staffly github.com/geraldserafin/staffly

- A shift-scheduling system I designed after running into the problem at work, with a crew of mostly students. Used it to generate real schedules for my crew.
